Whereas complaints surrounding motorcycle profiling have been cited in all 50 States;

Whereas nationwide protests to raise awareness and combat motorcycle profiling have been held in multiple States;

Whereas in 2011, Washington signed into law legislation stating that the criminal justice training commission shall ensure that issues related to motorcycle profiling are addressed in basic law enforcement training and offered to in-service law enforcement officers in conjunction with existing training regarding profiling;

Whereas the 2011, Washington law has reduced profiling incidents by over 90 percent and the stops that do occur are being dismissed 100 percent of the time; and
